TRANSPORTATION.

ECKFORD LINE.

FOR the transportation of Produce, Merchandize, etc., from and to, New York and the Western States, in connection with the

BUFFALO AND CHICAGO LINE OF STEAMBOATS.

Lady Elgin,	Hendrick Hudson,	Sultana,
Louisiana,	Globe,	Wisconsin,

The proprietors of the Eckford Line would particularly call the attention of the Merchants of Wisconsin, Illinois and other Western and South-western States to the superior facilities of their line for transportation to, and from, the ports on the Upper Lakes. The above line of Steamboats runs direct to our Dock at Buffalo and all goods contracted by this line for the Upper Lakes will be shipped (unless otherwise ordered or contracted) by *Steamboats*, (not Propellers) with but one, or possibly two exceptions. The Eckford is the only Line not interested in, or committed to, a Propeller Upper Lake Line; and in endeavoring to sustain a line of *Steamboats* on that route, the Proprietors hope to receive the support and patronage of the Merchants of the Western States, when interest demands the continuance of a line of such a class of Boats. Boats leave New York and Buffalo daily.

For days of sailing of Steamboats from Buffalo and Chicago, see advertisement in another part of this paper.

Refer to L. J. Higby, Thomas P. Williams, and Kellogg, Strong & Co., Milwaukee.

THE undersigned would respectfully solicit the attention of dealers in and consumers of Coal in Milwaukee to our Card, as above. The Bolivar Coal is unquestionably superior to any other mined in Ohio, for Grate, Blacksmithing, Machinery, or Domestic purposes; and for Steam purposes, is superior to any except Briar Hill. It is peculiarly well adapted to Shipping, as its extreme hardness renders it capable of bearing any amount of handling, without waste. It can be afforded considerably cheaper than Brier Hill, and for most purposes, is better.

It is our wish to introduce the article, and we respectfully solicit orders, confident that a trial is only necessary to convince any of the truth of the above assertion.

THIS Company offers unrivalled facilities for the insurance of Buildings and Personal Property against fire. The advantages offered, are security beyond the reach of circumstances, as the real estate insured is by law bound for the assessment made to cover losses beyond the power of evasion. Every person insured is a member of the Company, and entitled to one vote. The cost of insurance does not exceed one-third as much as in Stock Companies, saying nothing of the increased security and the incomparable ease with which losses are settled. During the last five years, this Company have issued 2600 Policies, and made but three assessments at a cost to the property insured, not exceeding two mills on the dollar. Its business is principally confined to this State.

THE OLD STAR HORSE SHOEING SHOP.

JAMES B. HICKEY, late of the City of Cincinnatti, has permanently located in Milwaukee, for the purpose of carrying on the Horse-shoeing Business, not to be beat by any Shop in the City; for with 21 years' experience in some of the best shops in the Union, he feels confident when he asserts that he cannot be beat. Citizens of Milwaukee and vicinity, to be convinced of the truth of my assertion, and have their Horses properly attended to, so as not be maimed, interfered, &c., had better call and examine for themselves, for they will have their work done as I say, and at $1 per set for Plain Shoes; Extra Shoes $1,25; Bar Shoes $1,50 per pair; Sandals $2,50 per pair; and all other work to suit the times. Don't forget to call at the OLD STAR HORSE-SHOEING SHOP, on Huron, between Milwaukee and Jefferson streets.

"The Brazen-Faced Hypocrites."

> Gen. King charges us with saying that "the American people are unfit to rule." The charge is false, and Gen. King knows it. Nothing of the kind ever appeared in this paper. The *Sentinel* has a way, under the pharisaical cloak of fairness, of quoting so much of an article as suits its convenience, of garbling and dove-tailing disjointed sentences, to make a meaning of its own directly the reverse of what was intended by the writer.—*Morning News.*

If the *News* meant "directly the reverse of what" it *said*, the fault is theirs, not ours. The charge that we "garbled and dove-tailed disjointed sentences" is "*false* and the *News knows* it." We quoted the *entire* paragraph, just as the *News* published it, and reproduce it again to-day. Let the reader mark it and see with what unblushing effrontery the *News* undertakes to *face down* its own assertions:—

> If a citizen of a monarchial government should visit the United States during a political campaign so conducted, for the purpose of observing the operation of Republican institutions, and particularly the working of that great principle that underlies them all, Universal Suffrage, he would inevitably come to the conclusion, *that the people are not fit to rule themselves, whose prejudices are so easily operated upon*—who so readily forget great principles, and become excited from one end of the Union to the other in regard to the mere personale of two individuals—especially when detraction, fed upon falsehood, is the weapon relied upon by a great political party to accomplish success.—Such is the example now held out to the world. It is a disgraceful commentary upon our institutions, and not calculated to advance the cause of Republicanism abroad.

This, be it remembered, is the language of the *News*, not of its supposititious "citizen of a monarchical government." It is the *News* which accuses the American People of "readily forgetting great principles." It is the *News* which taxes them with suffering their prejudices to be "so easily operated upon." It is the *News* which "comes to the conclusion," under the convenient cover of its "monarchical" subject, that "*the people are not fit to govern themselves.*" It is the *News* which pronounces all this "a disgraceful commentary upon our institutions," and that, too, when it is itself relying upon "detraction, fed upon falsehood," as its only weapon in the pending canvass. Did we not rightly rebuke its slander upon the American People, and its hypocritical pretence that it is the Whigs who are responsible for the "disgrace" which it imputes to our country?

"Read and Ponder."

Under this head the last Fond du Lac *Democrat* "assumes the responsibility" of publishing an extract from a private letter, dated Philadelphia Oct. 4th, which contains the following infamous slander against Gen. SCOTT:

> There is now in course of publication here an investigation of Gen. Scott's transactions in the Mexican War, *which shews a gross fraud on his part*, to the United States, in obtaining money and not making a just return to the Treasury, *but using it for his own purposes.* I will procure a copy and send you as soon as possible, for the public ought to know who they vote for, whether he be an honest man or not.

As the name of the writer is not given, the Fond du Lac *Democrat* must be held responsible for this base libel upon WINFIELD SCOTT. It is unnecessary to denounce the story as a gross and wanton fabrication. The whole country *knows* it to be FALSE.

There never has been in the public service a man more scrupulously honest and upright in all his dealings than WINFIELD SCOTT. The record of his *forty-five years* of faithful and distinguished services does not contain one solitary blot. His public, like his private character, is pure and unsullied. He offers, indeed, in his manner of life, and spotless reputation a noble exemplar for American Statesmen and Heroes. Detraction itself blunts its weapons against such a mark; and the most reckless partizanship must blush to think that the name and fame of so illustrious an American should be dragged thro' the dust and mire of the political arena, by the hands of hired gladiators, to subserve the basest purposes of party. Will not the AMERICAN PEOPLE rebuke these atrocious slanders upon a gallant old Soldier who has spent his life and shed his blood in the cause of his country?

LEGISLATIVE NOMINATIONS.—JOHN SMITH, of Ixonia, is the Whig candidate for Assembly in the 4th district of Jefferson Co.

SAMUEL E. TARBELL, whig, in the western district of Kenosha Co.

In Iowa Co. LEVI STERLING, whig, the present Senator is nominated for that office. CHAS. S. NOURSE is the whig nominee for Assembly in the northern, and PHILIP W. THOMAS in the southern district.

In Fond du Lac Co, CHAS. D. GAGE is the loco candidate for Assembly in the Auburn district, and QUEREN LOEHR in the Calumet district.

HEAR HIM!—The *News* addresses the following piteous appeal for help to "Free Soil Democrats:"

> Free Soil Democrats should recollect that by voting for Hale they help to elect Scott, and then, in the Providential dispensation *we suppose likely* they would have a Southern slaveholder and a most determined upholder of Slavery in the Presidential chair.

How would it be supposing that this "dispensation" should overtake Mr. PIERCE? What sort of satisfaction would it be for "Free Soil Democrats" to help elect WILLIAM R. KING?

Affairs with Cuba.

The New York *Courier & Enquirer* furnishes a very full account of the outrage committed by the Cuban authorities on board of the American barque *Cornelia*, concerning which it remarks as follows:—

> We publish this morning a detailed account of the outrageous and pitiful conduct of the officers of the Spanish Government, in Cuba, toward Captain Ward, of the barque *Cornelia*. The insult was of the grossest character and, entirely unprovoked, and there cannot be the slightest doubt that, combined with the desire to obtain possession of the letters entrusted to Mr. Guzman, was a deliberate intent to offer an indignity to an American citizen and the American flag. There can also be no doubt that our Government will take prompt and efficient measures for the exaction of satisfactory explanation or amends for this insult, as well as that offered to the *Crescent City*. But the report that the steam frigate *Mississippi* has been ordered to Havana upon this business, must be altogether without foundation: for no authentic account of either affair can yet have been laid before the President, much less can a war steamer have been ordered to be in readiness to bear a belligerent message to the Spanish Viceroy. That an explanation will be imperatively demanded may be regarded as certain; and if proper reparation be not made, and similar conduct be persisted in, it is quite probable that Spain may have heavier business upon her hands than the suppression of filibusteros. This government has acted with unimpeachable good faith toward Spain during all these troubles, and if her little majesty ISABELLA II. Q. D. G., be weary of the care of her "ever loyal Island," she can contrive no surer or speedier method of ridding herself of it, than by continuing his Excellency VALENTINE CANEDO there as her representative.

There is a great deal of truth in all this, and it does seem strange that with a full knowledge of the elements at work in various parts of this country, all having for their object the acquisition of Cuba by fair means or foul, the government of that Island should be so fool-hardy as to exhibit a course of conduct so certain to fan the already glowing embers of insurrection and invasion into an uncontrollable fire. Yet, so it seems to be.—In addition to the outrage to the *Cornelia*, the affair of the steamship *Crescent City* is of a very delicate nature, and requires careful management. The Cuban government takes upon itself to prevent American vessels from entering the port of Havana, if they happen to have on board, in any capacity, a certain Mr. Smith, who, it seems has written to his friends or the press in the U. States, accounts unfavorable to the security of the Island in Spanish hands; and the steamer has been obliged to pass on without landing her passengers or mails.

Already, as is reported, the steamer *Powhatan* and the sloop-of-war *Cyane* have been sent to Cuba to look after these matters, and the owners of the *Crescent City* are determined to send her again to Havana, on her way to Aspinwall, with purser Smith on board. We trust that some means will be found to quiet and put upon their good behaviour these testy Spaniards without an open collision, for we do not wish to see the islands with its hundreds of thousands of slaves, and a people different in language, habits,—everything, in short—from our own, annexed or *re*-annexed, by conquest or sale, or in any other mode, to the United States. But, while this government is earnestly and faithfully endeavoring to fulfil its treaty stipulations with Spain, and to keep down the filibustering propensities of a portion of its people, the Cuban government must be taught to respect the rights of the flag which covers American citizens.

NEW APPLICATION OF STEAM—*Successfully tried.*—On the 1st inst., a trial was made in the harbor of New York, of a small steamer, fitted with an engine constructed on a new principle, which we find thus briefly described in the *Courier & Enq.*:

> The steam acts upon a compact engine, about the size, in circumference, of the head of a barrel, and about 12 inches thick. The power is applied directly to the shaft, which, with the paddle-wheels and a gearing for pumping water and blowing the fire, comprise the equipment. A good watch is a very correct simile of the engine in its construction and movements, for no piece of machinery can run more uniform, true and beautiful, nor be more easily made obedient to every change desired—of going ahead, stopping or backing. Like the dottings on the telegraph paper, each change may be produced by the pilot with the thought that suggests it, and by a touch light as a finger on a finger.
>
> She left at the Atlantic dock, Brooklyn, at 10½ o'clock A. M., and reached Sandy Pt. Lighthouse in 2½ hours. Returning, she made the the dock in 2 h. 43 m., against a strong tide. Several captains of steamers were on board, and expressed themselves highly pleased with the new engine.

Better Still from Pennsylvania.

By the Buffalo papers of Thursday ev'g, we had the following table of members of Congress elected in Pennsylvania:

1st District—Florence, dem.
2d—Joseph R. Chandler, whig.
3d—John Robbins, Jr., dem.
4th—Wm. H. White, dem.
5th—John McNair, dem.
6th—Wm. Everbank, whig.
7th—R. A. Bridges, dem.
8th—H. A. Muhlenberg, dem.

13th—Asa Parker, dem.
14th—G. A. Grow, dem.
15th—Jas. Gamble, dem.
16th—Wm. H. Kurtz, dem.
17th—James L. Russell, Whig.
18th—John McCulloch, Whig.
19th—Aug. Drum, dem.
20th—John L. Dawson, dem.
21st—David Ritchie, Whig.
22d—Thomas M. How, Whig.
23d—John Allison, Whig.
24th—Carlton B. Curtiss, dem.
25th—John Dick, Whig.

Total—15 locos, 10 whigs. In the last Congress, there were 15 locos, and 9 whigs, showing a whig gain of one member. Later news report the election of Fuller, whig, over Wright, in the 12th district, which would give a whig gain of two members.

Col. Macy.

The Watertown *Chronicle* has the following portrait of Hon John B. Macy, Locofoco Candidate for Congress in the Northern district. There are some people who think it drawn to the life:

> *Col. Macy and the Railroad.*—The Chronicle appreciates Mr. Macy; it will find out that the people appreciate him also.—*Port Washington Blade.*
>
> Why should'nt we "appreciate" Mr. Macy?—He is by far the greatest genius *in his way*, in all the north-west, and we "appreciate" genius in whatever garb it may appear. MUNCHAUSEN was considered "some pumpkins" in his day, but compared with the colonel, Munchausen sinks into utter insignificance. Indeed, John B. Macy stands "solitary and alone"—unapproached and unapproachable—in all that pertains to the wonderful and credulity-taxing in the line of story telling. A *second* John B. Macy neither this day nor generation will be able to produce.
>
> The Blade is not well posted. "The people" of this valley, at least, *do* "appreciate" the colonel already. They know what he has done, what he claims to have done, and what he has promised to do. They all expect the railroad to pass thro' their farms and villages, whether situated on the river or half a dozen miles therefrom. No other man than John B. Macy could have succeeded in giving permanency to the belief that an undertaking fraught with so many *apparent* difficulties, could be easily accomplished. Our people are proverbially a generous people. Such rare merit as the colonel combines, cannot fail of being "appreciated" by them.

THE BRITISH FREE TRADE PARTY.—Read the article in this morning's paper, copied from the New York *Courier and Enquirer*, detailing the injuries inflicted upon the Enterprize and Labor of our Country, by the British Free Trade Tariff of '46, and judge whether FRANKLIN PIERCE, upon whom "ENGLAND RELIES TO CARRY OUT THIS POLICY," deserves the support of true-hearted AMERICANS?

THE IRISHMEN OF NEW YORK.—We publish this morning a manifesto from adopted citizens of New York, of Irish birth, setting forth their reasons for supporting WINFIELD SCOTT. The *N. Y. Tribune* says that it speaks the sentiments of thousands of warm-hearted Irishmen in that quarter.

THE NEW YORK TRIBUNE.—The *Tribune* of Monday last comes to us in a new and very handsome dress of copper-faced type. The aggregate circulation of the *Tribune*, Daily, Semi-Weekly and Weekly, is now *ninety-five thousand.* It is the best, cheapest and most influential paper published in the United States.

PIERCE FOR ENGLAND!

From the New York Courier and Enquirer.

The British Free Trade Party.—This title has been frequently applied to our opponents, and with so much force and justice, that they begin to shrink from it as one of those dangerous appellations which is sure to involve them in defeat, unless they can prove it is unmerited. The charge is so grave in its character, that it is sure to lead to investigation on the part of the people; and this is all we desire.

If there be a party in this country, which clearly and palpably seeks to advance the interest of Great Britain at the expense of the laboring population of the United States, and our national interests, no man in his senses, will deny that it richly merits the name of "The British Party." And that there is such a party in the United States, and that Pierce and King are its candidates for the Presidency and Vice Presidency, we desire no better evidence, than that afforded by the British Press. Every Press in England, we believe without an exception, is avowedly in favor of the election of the Democratic ticket; and as they have no object in concealing their reasons for taking the Loco Foco side of the question, they very frankly and truly inform their readers, that it is because the Democracy if successful, will continue to England the enormous benefits of our own low tariff or Free Trade policy,—while if the Whig party succeeds, they will restore the tariff of 1842, and thus cut off at least *one-half* of the exports from England to the United States—which will then manufacture nearly all the iron and cotton fabrics, and most of the woolens now imported from Great Britain!! Is this true, or false? Do or do not the English Press, honestly inform their readers of the consequences of the pending Presidential contest? Would not the Loco Foco party if successful, continue the present ruinous free trade tariff, for the benefit of England and to the injury of the United States? and would not on the contrary, the Whig party, if it should succeed, restore a tariff for the protection of American Industry, to the injury of the British manufacturer, and the benefit of every great interest in the United States; and the permanent superiority of the people?

The answer to these questions is simple and cannot be denied. The British Press does truthfully place before the British public, the matters at issue in our Presidential contest; and it should not be matter of surprise, that all England, without distinction of party, feel a deep interest in the success of Pierce and King over Scott and Graham. *Blackwood's Edinburgh Magazine* distinctly tells us that the question now pending in the United States, is, whether we shall manufacture for ourselves, or whether England shall manufacture for us? and very wisely argues, that with the advantages possessed by the British manufacturer in employing Pauper labor at Pauper prices, it is only necessary to secure a continuation of our present tariff, to insure the complete triumph of England. The English Press reiterate the assertion and pray for the success of Pierce and King; and we need not encumber our columns with evidence of the truth of this assertion, beyond what is contained in the following extract from the *London Despatch*:

(From the London Despatch of September 5, 1852.)

> "The two parties of the Republic, Whig and Democrat—that is, Conservative and Progressive, Protectionist and Free Trade—appear to have marshalled their forces, and selected their candidates for the coming election. EVERY ENGLISHMAN, of almost every class, REJOICES IN THE EXPECTATION OF SUCCESS FOR THE DEMOCRATIC, PROGRESSIVE, FREE TRADE PARTY."

And yet in the face of these facts, the party which sustains Pierce and King and their Free Trade Doctrines, pretend to take in dudgeon their being denominated "The British Party," in contradistinction to that of "American Party," which so rightfully belongs to the Whigs, because they advocate *American* instead of *British* interests. Let us look at their acts and their consequences.

In 1842 the whigs passed a moderate tariff for the protection of American Industry, which wisely discriminated between articles of foreign growth and manufacture which we could not produce under favorable auspices, and those necessary articles of domestic manufacture which every people must produce within themselves if they would be really independent of Foreign Nations. Thus we laid *specific* duties upon every article upon which it could be collected; and we made it the great aim of our tariff system, to protect the manufactures of cotton and woollen—our great staples; and to encourage our Iron manufactures. Under this wise law, cotton and woollen manufactures, grew up in every section of the country and furnished home-markets for the farmer in almost every county—increasing the consumers of agricultural produce at the same time that it very materially lessened the number of producers; and of course, secured to the Farmer a high price for the produce of his farm. But this was not all. The tariff of 1842 was intended to protect the great Iron interest of the country; and it accomplished this purpose most effectually. Iron is almost entirely the product of labor. Our mountains and vallies are filled with Iron and Coal; and all that was requisite for the production of an abundance of better Iron than we can possibly import, was protection to American labor against the Pauper labor of England and Wales. This the tariff of 1842 effectually gave; and tens of thousands of honest laborers, and millions of dollars of American capital, were actively employed in developing the resources of our country, and rendering us independent of Europe. At this period "The British Party" obtained the ascendancy; and what was the consequence? The tariff of 1842 was repealed and that of 1846 substituted, for the special and sole benefit of England and the utter ruin of the American manufacturer! Had "the American Party" continued in power, at this day there would have been more than two hundred thousand laborers employed in the production of Iron alone; and every county in every State of the Union, would have had its one or more Cotton, or Woolen, or Iron Manufactories, with their hundreds and thousands of laborers employed, and buying and consuming the produce of the soil—thus furnishing a home market at the very doors of our farmers. What have been the consequences of repealing the tariff of 1842, and substituting that of 1846?

First, the hundreds of thousands of laborers, who under the tariff of 1842, would have been employed in workshops and manufactories, and in Coal and Iron Mines, receiving large wages and consuming at high prices, all the surplus produce our farmers could raise, are now themselves forced to turn the soil for subsistence,—thus greatly increasing the agricultural produce of the country at the same time that the number of purchasers and consumers is greatly decreased.

Secondly, our Iron Manufactories, our Blast Furnaces, and our Rolling Mills, are almost without an exception, closed—our capitalists who embarked in this business ruined, and those employed in them, thrown to the soil for subsistence; and all to benefit the pauper labor of Europe and the European capitalists who employ it!

Thirdly, our cotton and woollen mills, have rapidly followed in the train of our Blast Furnaces—their owners have been ruined, their occupants been turned upon the soil for a subsistence, and their magnificent work shops now stand forth desolate ruins,—monuments of the folly and wickedness of "The British Party" controlling American Legislation!

Fourthly, to benefit England and support her Pauper Labor at the expense of American Industry, we have not only ruined our manufactures, closed our Blast Furnaces and cotton and woollen mills, and sent hundreds of thousands of laborers to cultivate the soil to the injury of the Agriculturist,—but we have sent abroad ONE HUNDRED MILLIONS OF GOLD which under the Tariff of 1842, would have been retained in the country, and at this moment are indebted to England, in *promises to pay* in the shape of General, State, County and Rail Road Bonds, and Bank Stocks, the enormous amount of THREE HUNDRED AND FIFTY MILLIONS OF DOLLARS!!

Here, then, is a difference against us, in cash, of *four hundred and fifty millions of dollars* between the tariff of 1842 passed by "the American Party," and that of 1846 adopted by "the British Party!" And how has this enormous sum been expended? We answer in the purchase of Railroad and other iron, and for cotton and woollens, which we could have made far better at home; and in the purchase of gew-gaws which we did not need, or if we did, most of which we should have manufactured here if a preference had not been given to the Pauper Labor of Europe for the benefit of the British Capitalist. But this is by no means our whole loss. The total destruction of our iron manufactories and the enormous loss on machinery necessarily abandoned to the policy of "the British Party," added to the actual loss to the Farmer by the destruction of his home market and the increase of producers, exceeds in amount the export of gold and our present indebtedness to England and the Continent; and we hazard little in saying, that the United States is at this day, poorer by a THOUSAND MILLIONS *of Dollars* in consequence of the repeal by "the British Party" of the Tariff enacted by "the American Party" in 1842.

With these facts staring them in the face, and a surplus in the Treasury of nearly twenty millions of dollars, collected from the import of British goods which we could have manufactured far better ourselves; with a constant drain of all our gold from California to support the manufactures and pauper-laborers of England—and with an actual indebtedness to England of three hundred and fifty millions of dollars, which must sooner or later be paid, and on which we are now annually paying *twenty-one millions of dollars for interest*—is it not idle for the self-styled Democracy to attempt to get rid of being considered "THE BRITISH PARTY?" And is it not both folly and wickedness in the people of the United States, longer to submit to be governed by a set of politicians who so openly war against the best interests of our country?

Will the people of these United States reflect upon these facts; and then at the coming Presidential election, gravely determine whether they can conscientiously vote for the candidates of the British Party," instead of giving their suffrages to Scott and Graham, who are the nominees of the Whigs—who are Whigs because they are truly "the American Party."

Citizens of Irish Birth, in New York, Brooklyn, and Williamsburgh.

To the Public.

We, the undersigned, residents and voters of the city of New York, Brooklyn, and Williamsburgh, natives of Ireland, have seen, with some surprise, the attempt made by certain parties in this city, who are neither citizens, nor voters, to dictate to us, older, and we presume, quite as well informed residents of this Metropolis, how we should vote in the coming Presidential Election.

We beg to say that we place no reliance in statements put forth by one who is not even himself a citizen, speaking through a "neutral paper," whose columns have been purchased for the purpose, and impudently assuming to speak for the naturalized citizens of New York.

Now, we beg to say that we will vote for Winfield Scott, and against Gen. Pierce, for the following among other reasons, which are so plain as to commend themselves to the approval of every citizen:

WINFIELD SCOTT is in favor of principles laid down and advocated in Ireland by such men as LUCAS, SWIFT, GRATTAN, O'CONNELL and MEAGHER; in favor of Protection to Home Industry; while FRANKLIN PIERCE is in favor of the doctrines of *The London Times*, which would follow the Celt, whom he had hunted from house and home, from the island of his birth into this country, and here, beneath the very wings of the American Eagle, make him a machine for consuming British manufactures, and thereby make him sustain the very policy which had hunted him from his home.

Because WINFIELD SCOTT is in favor of, and FRANKLIN PIERCE is opposed to, Internal Improvements, by which the laborer can make money with which to commence the world; and of such a disposition of the Public Lands as will secure comfortable, free and independent homes for the honest laborer.

That WINFIELD SCOTT has been for forty years before the public, distinguished alike in war and peace, the great benefactor and most beloved of soldiers, both by naturalized and native citizens; while FRANKLIN PIERCE has never done anything to endear him to the country or to its citizens, either native or adopted.

We shall vote for WINFIELD SCOTT because he has proved himself the friend of his country and all its citizens, no matter on what soil they were born, or from what nation they came.

His noble conduct on the prison ship at Quebec, when British minions assumed the right to execute Irishmen for being found in arms against England, especially endears him to every Irishman who has an honest heart in his bosom.

Who that claims to be an American citizen does not point with pride to that page of the History of the United States, made glorious by the courage and bravery of the faithful soldier.

For ourselves we feel that it is only to such men as WINFIELD SCOTT that the Nation can look with safety in her hour of trial and danger—a man who has proved his prowess by coping successfully with England in her day of pride and power, and whose whole life has been devoted to the service of his country.

We will vote for Winfield Scott because he has respected the religious opinions of those with whom he came in contact, and always used his power and influence to protect the altars of all creeds from desecration. In this respect the life of Winfield Scott stands out in bold relief as compared with the narrow-minded bigotry of New Hampshire, the native State of Franklin Pierce, a State always under the dominion of his party and political associates, and which is now the only State in the whole Confederacy where men are proscribed on account of their religious faith.

It will not do for the friends of Pierce to urge that he was in favor of expunging this odious restriction from the Constitution of the State. The *evidence* of his labors to do so is wanting.

A PITIFUL BUSINESS.—The Mineral Pt. *Tribune* gives the following account of a very small peice of impertinence exhibited by the Loco Foco candidate for Congress in the Western district. We are very much mistaken if the people of that vicinity do not administer a fitting rebuke for such conduct at the polls:

> The conduct of the self-styled Democratic Party, with the *Honorable* (?) Ben C. Eastman at their head, on Saturday evening last, was certainly very ungentlemanly, to say the least. The Scott Club had their regular meeting on that evening, and was addressed by the Hon. Chauncy Abbott, by invitation. After Mr. Abbott had concluded his remarks, (which by the way were an honest, fair and candid impression of his views upon the political topics of the day, without descending to any of the low blackguardism used by our opponents,) an attempt was made to proceed with the exercise of the evening, when Ben C. Eastman was called upon by his political friends, and notwithstanding the Whigs attempted to go on with their meeting, and loud calls were made for the Glee Club, this *Honorable* gentleman very deliberately stepped forward, and occupied the stand for an hour and a half, and finally wound up, as usual, by accusing Gen. Scott of Native Americanism, which he attempted to prove from his Locofoco pamphlets, and reading from the forged letter to G. W. Reed. We were well satisfied with Ben's speech, for we think it tended to help the Whig cause; but if he does not know his place better than to force himself unsolicited upon a Whig meeting, we think his experience in Congress has not improved his manners.

Correspondence of the Tribune.

Signal Gun from New-London.

New London, Friday, Oct. 8, 1852.

The Whigs of New Londan held their first meeting last evening, and it was a very enthusiastic one. Nothing like it has occurred since 1840. The Town Hall was crowded to its utmost capacity. The meeting was addressed by Messrs. Terry and Jerome, from New Haven; J. F. Trumbull, of Stonington, and others. The good work has begun in earnest, and we feel assured of a large majority for Scott and Graham in this section of Connecticut. The *people* have taken hold of the work, and old Connecticut will do her duty on the first Tuesday of November next.

GEN. SCOTT AT BUFFALO.

Gen. SCOTT, on his return from his Western tour, reached Buffalo Wednesday morning and was received with the liveliest enthusiasm. In reply to an address of welcome from Mayor BARTON the General spoke thus briefly and pertinently:

MY FELLOW-CITIZENS OF BUFFALO:—I am happy to be able to feel that I am not a stranger among you. It is now 40 years and one week since I first visited this place—since I first caught a view of the mighty inland ocean, which now lies spread before me. It is upwards of 40 years, as your Mayor has remined me in flattering terms, since I was called upon to form a camp of instruction in this neighborhood; and since the army first organized here and prepared for those great battles which our countrymen do not now choose should be forgotten. [Applause.]

I well recollect the scenes which were enacted in this neighborhood at that period. They are brought back forcibly to my mind this morning when I behold some of my fellow actors in those scenes; for although so many have passed away, I thank God that a few still remain of my old companions of 1812. In the space of time which has intervened since then, Buffalo has passed from a hamlet to a mighty city. Thanks to the enterprise and intelligence of its inhabitants, an important city now rises where then all was desolation. Buffalo was burned in the winter of 1813-14. I was at a great distance from this place at the time of the burning, and the whole frontier was in a state of despondency—of despair.

At that period I was sent here by the government, to form a new army and to endeavor to make head against the enemy. While the army remained, and I am proud to say they rendered good service, the inhabitants took courage—they returned to the smouldering ruins where once had stood their dwellings, and commenced rebuilding. Whilst I remained I had the pleasure of seeing their labors progress, of beholding their houses rise from the foundation to the crowning roof. I had also the satisfaction of urging out volunteers to assist them in their work, from amongst the mechanics who had enlisted in the ranks of the army—and brave, noble soldiers they were. They aided the inhabitants in their work, and contributed all in their power to their relief. These are the recollections which make this spot most interesting, and render the present moment one of the proudest of my life.

There are other associations, too, more personal, with which these scenes are connected. I do not forget that it was in this neighborhood, forty years and four days ago on this very day, that I heard the report of the first cannon and first musket that I ever heard fired in war. (Loud cheers.) I well remember—never, indeed can I forget—the valuable assistance which the brave and patriotic citizens of this vicinity gave to the army of their country in securing the victories which followed. I remember the assistance, indeed, received from the inhabitants on the entire frontier, who came to the aid of the regular troops and helped not a little in achieving the victories which thenceforth crowned our arms.

I thank you, then, heartily my countrymen of all parties for this welcome. I make no distinction, and I trust none is made by any on this occasion, between whigs and democrats. I have made, and I make no allusions to party topics, I say to all my countrymen, whether of this or that party—whether born upon the soil or adopted by their own voluntary acts—I thank you for this greeting, and am proud to call you all my countrymen. Yes, and I am proud, too, to claim your great State of New York as my home for thirty old years.

I am happy to belong to the great and glorious Union, of which this is the Empire State. I am proud and happy to own allegiance to that Union—to owe devotion to the constitution, and to all the compromises of the constitution. In this day of prosperity and sunshine there is little merit in boasting that, like you, I have been ready at all times to lay down my life in the support of that Union and constitution, But may I not hope that my past life, in darker hours, has proved my sincerity, and is sufficient guarantee that I partake of your devotion to the best interest of our common country.

My friends, being debarred from all party topics—being resolved not in any instance to touch upon such subjects—I have little more to add, except my hearty thanks, the thanks of an old soldier, for the honor you have this day done him. The occurrences of this day will be added to my other pleasing recollections of your city, and cherished the remainder of my life—a life already extended to the usual span, and which cannot last more than fifteen or twenty years longer. Accept then, my friends, my hearty thanks for the warmth and sincerity of your welcome, and may God bless and prosper you all.

Scott's Public Services---His Greatness Alike in War and Peace-- The Opinion of Statesmen.

We republish below the correspondence which took place, on his return from Mexico, between Gen. Scott and John C. Calhoun, Gen. Simon Cameron, John M. Clayton, and other distinguished statesmen of the country, of both political parties. It will be observed that the proffered compliment was not merely intended as a token of their approbation of the brilliant military services of Gen. Scott, but also as a testimony of their regard for the civil services rendered by him. It is a triumphant vindication, signed as it is by many of the greatest men in the Democratic party, of General Scott, from the charges now made, that he has no civil experience or qualifications:—

WASHINGTON, July 24, 1848.

SIR—It affords us great pleasure to hand to you the enclosed invitation to a public dinner, at such a time as may suit your convenience.

The desire of all is to manifest, *not only* their admiration for your distinguished services during the whole of your military career, but *no less* their personal regard and friendship for yourself.

Will you oblige us by naming such early time for the dinner as may suit your convenience?

Very respectfully, your obedient servants,

John M. Clayton,
John C. Calhoun,

Maj. Gen. Winfield Scott, &c.

THE INVITATION.

The undersigned wish to tender to Gen. Scott the honor of a public dinner, at such time as may suit his convenience. Deeply impressed with the great services he has rendered the country in the war with Mexico, just closed; with the important agency he has had in consummating an early and honorable peace, and, above all, desiring to show our respect for the patriotism, humanity, skill and bravery of a man whose whole life has been one of ardent devotion to the public good, alike in war and peace, we desire personally to tender him this mark of our common regard for his services as a soldier, and his virtues as a man.

REPLY OF MAJ. GEN. SCOTT.

Elizabethtown, (N. J.) Aug. 8, 1848.

GENTLEMEN:—Returning prematurely, from the sea shore, I have the honor to find here your communication tendering me, on the part of a large number of the members of the two Houses of Congress, a public dinner on any day that I may name—an invitation the most flattering, but which, on account of continued physical debility, I am obliged to decline.

I had, earlier, the happiness to receive from every member of the present Congress, in the form of certain resolutions, the highest distinction that could be bestowed upon a citizen soldier. The present invitation, expressing the private consideration of so many of the most distinguished Representatives of the States and the People of the Union, without regard to party, supersedes every obligation of personal thanks and gratitude, on gentlemen,

Your fellow citizen and friend,
WINFIELD SCOTT.

Hon. J. M. Clayton, J. C. Calhoun, R. C. Winthrop, Z. A. Rockwell, and M. Hampton, Committee, &c.

LOOK AT THIS!—Hon BEN. C. EASTMAN, in 1850, when a candidate for Congress, wrote a letter and made a speech to the Free Soilers of the Eastern portion of the District, pledging himself if elected to advocate Free Soil principles, and go against the Compromise measures; he at the same time wrote to a gentleman in this place, saying that he made such a pledge, but requested him, if it got out here, to pronounce it a lie!! These are facts that can be proved.—*Mineral Pt. Tribune.*

City Matters.

Chicago Cricket Club.

> The members of the Chicago Cricket Club leave here for Milwaukee to-morrow morning at 8 o'clock, to play the return match with the Milwaukee Club. The Milwaukee Club will, if possible, try to gain the day, and should they succeed, both Clubs will have to play again this fall.
>
> We understand that many of our citizens will go down to Milwaukee to witness the match, the contest being, to some extent, one of city pride and superiorty.—*Chicago Tribune*, Saturday.

The Return Match, above noticed, comes off in this city *to-day.* The wickets will be pitched at half past 9 o'clock this morning, on the grounds of the Milwaukee Club, on Spring Street Hill.—Refreshments will be provided on the field and in the evening the Players and Members of the two Clubs sup together at BELDEN'S. If we are favored with pleasant weather, we anticipate a most interesting contest and a right good time to-day. Our citizens, ladies as well as gentlemen, are invited to visit the grounds and witness the match.

BUSINESS ON THE RAIL ROAD.—The business on the finished portion (51 miles) of the Milwaukee and Mississippi Rail Road, outruns the most sanguine anticipations of its projectors. The Company have not Engines and Cars enough to transport all the produce and merchandize offering.—They are obliged to run extra trains almost every day to keep up with the accumulating freight at the Depots. Nearly ten thousand bushels of grain, per day, now come in over this road, and the Freight Train West, Saturday afternoon, consisted of twenty-two cars, all full.

SHOT.—A son of Justice Smith, of the First Ward, was hunting quails in an enclosed field, north of the city, when the proprietor, a German came out and deliberately shot him in the back with a double-barrelled shot-gun. The man was arrested and is to be tried next Tuesday. Dr. Douglass extracted the shot from the young man's back and legs.—*Free Democrat.*

☞ We notice that the new passenger office of the M. & M. Railroad Co. is so far completed that it is brought into use, adding greatly to the comfort and convenience of travellers arriving and departing. The large car-house is also nearly ready for occupation.

The latter cargo is first of the new Wisconsin crop received here, and from its handsome quality as compared with Wisconsin wheat in past years, attracted much attention among dealers, who pronounced it equal to good red Ohio wheat. The cargo sold to a miller at about the price paid for Ohio. Corn is saleable at 52c, but we believe there is none on the market. There have been sales of barley during the past week at 65a95½c for shipment.

WHAT CONSTITUTES A GENTLEMAN?

THE reader's definition would probably be, true kindness, consideration for the feelings of others, and honesty and liberality of sentiment. These qualities do, in reality constitute the gentleman; and in a society organized upon the basis of moral worth, instead of wealth, would pass current as a sufficient passport to the highest circles. But unfortunately for many of Nature's noblest works—gods—gentlemen,—something more than moral worth and genuine politeness are requisite to obtain the appellation of a gentleman. In most cases a good, if not fashionably clothed exterior, is the only *wand* which affords ingress to the society even of those who profess to be guided by other standards than appearances.

The Hair, one of the first objects that attracts our notice, is by many considered the most important. A person may be clothed in the richest fabrics manufactured after the most approved taste, his hat may be irreproachable in style, his linen may be pure and unsullied, his boots may be well-fitting, gentlemanly, French calf or the bright, glistening patent-leather, with its untarnished, mirror-like surface still something is wanting. Although we lay no claim to the character of a philosopher, or metaphysician, we think a little light may be shed on this vexed want:—*The Head is Bald!* Still, do not despair; Johnson's Chemical Hair Invigorator, whose perfume is of the most rare and delicious fragrance, the best and only reliable antidote for baldness known, is still to be obtained. If any roots are left it will produce hair. It gives tone and vigor to the functions of the scalp, and speedily insures to the user a beautiful crop of hair.

AYER'S CHERRY PECTORAL.

We call attention to the advertisement of this article now in our paper, and at this season of the year when colds and coughs are so prevalent, the information it contains will not be found unwelcome. The eminent names, lent to recommend it, are conclusive proof of its value. In addition to these we have been favored with the perusal of letters from many distinguished individuals as well as humble sufferers, who acknowledge their indebtedness to this valuable medicine for the recovery of their health from painful and dangerous diseases. It is at once safe and pleasant to take, and is certainly very powerful to cure.—Those afflicted with coughs, colds, asthma, bronchitis, hoarseness, or indeed any of the various affections of the lungs, will do well to try the Cherry Pectoral, and will have no cause to regret the experiment.

WORTHY OF ALL CONFIDENCE.

DR. STORM'S CELEBRATED SCOTCH COUGH CANDY.—No medicine ever invented has gained more popularity than this, nor is there any more deserving of it. There are so few compounds worthy the high merit claimed for them, that when one which is really destined to benefit the afflicted is put forth, we are slow to believe our most intimate friends, when they praise it. But Storm's Scotch Cough Candy is sold at a price so low, it must be evident to all that if it did not sustain a good reputation, enough would not be sold to pay for advertising. Almost every person that uses this article according to direction will feel justified in recommending it to others, it needs but a small outlay of money and time to satisfy the most sceptical that it is worthy of all confidence as a remedy in diseases of the Chest and Lungs.

Price, One Dime per Roll; 3 Rolls for 25 Cents; or $1 per Doz.

A handsome engraving of the Scottish Coat of Arms, and the written signature of Hamilton Wade, (proprietor,) is on the outside wrapper of each roll or package.

Kenosha, Oct. 16.

C. L. Sholes was nominated this P. M., for the Assembly, by the Free Democrats of Kenosha, Eastern District.

Pennsylvania Election.

We give below some details of the late election in Pennsylvania. It looks very much as if our Loco Foco friends have crowed too quickly:

First Congressional District, Thomas B. Florence (Loco,) is reported elected over Levin, (Native.)

Second district, J. R. Chandler, (Whig) re-elected over John Hamilton (Loco) and Chas. Taylor, (Native.)

Third district, comprising Northern Liberties, Kensington and a large portion of Philadelphia county, always strongly Loco, has elected J. Robbins over Sanderson (Whig) and Painter, (Native.)

Fourth district, comprising a large portion of Philadelphia county, strongly Loco, William H. White, over Lambert (Whig) and Gorman (Native.)

5th Dist., remainder of Philadelphia and Montgomery co., J. McNair, (loco) over Hitner (whig) and Watmough native. Montgomery Co. in 1851 gave 891 majority for Bigler, loco.

7th Dist. Comprising Bucks and Lehigh counties, elect Bridges (loco) over Taylor (whig) gave 667 majority for Bigler in 1851.

8th Dist. Berks Co., Muhlenburgh (loco) over Daniel Bieber (whig) only gave 4763 loco majority in 1851.

12th Dist. Columbia, Luzerne, Montour and Wyoming counties, Fuller (whig) reported over Wright (loco.) This district gave 3,356 loco majority in 1851.

It will be seen then that nothing can be known how the State stands till we hear from the interior. Instead of Philadelphia city and county having only two members, they have now five, including the strongly loco county of Montgomery.

Northampton county reported to have given 1250 loco majority gave 1523 loco majority at last State election. Center county reported at 1000, gave them 1100. So far the Whigs appear to have gained considerably.

This table shows the reported majorities and the majorities of last year on Governor's election, when Bigler was elected over Johnson by 8,000 Nothing has yet been heard from any of the whig districts or counties except Lancaster.

Philadelphia, Oct. 13.

Lancaster county gives the Whig candidate for Canal Commissioner 3800 majority, but there is no doubt of the election of the Democratic candidate. The House of Representatives will be Democratic.

In Cumberland, the Dem. majority is 200. In Delaware county, the whole Whig ticket is elected, but the vote owing to local causes, is small. In Lancaster county the Whig candidate for Congress was about 1500, behind the Canal Commissioner. Cambria County gives Dem. majority.—Lycoming, gives 600 do. Columbia 900, do. In the third district Robins, Dem. majority for Congress, in Kensington, Northern liberties is 200.—In Fayette County, Dawson, Dem. for Congress has 46 majority.

Ohio State Election.

Cleveland, Oct. 14.

Five towns in Geauga County, 19th District, give the following votes for Congress:—Wade, Free Soiler, 695; Wm. Case, Whig, 592; Wilson, Democrat, 333. Wade is believed to be elected by about 500 majority.

Additional returns from Ashtabula, state that J. R. Giddings, Free-soiler, has been elected to Congress by some 300 majority.

The Whig vote in this County is increased over 500.

Columbus, Oct. 14.

Second Despatch—The *State Journal*, of this forenoon, announces partial returns received indicating the election of the democratic candidate for Judge of the Supreme Court, and also a democratic board of public works. From the First Congressional District the returns show the re-election of Disney, dem., by 600 majority. In the Second, Hamilton District, Harrison, Whig, is elected.

Third District— Campbell, Whig is elected by about 100 majority.

In the 10th, Ross District, John L. Taylor Whig, is elected.

Galloway, whig, beats Olds, dem., in the 12th Dist., by about 100 majority.

Ohio Election—A Better Look.

The editor of the Cincinnati Nonpareil, who arrived at Detroit last evening, brought the intelligence that the Whigs have gained *three* and, probably *five* members of Congress in Ohio.

J. Scott Harrison is elected over Ball, in the 2nd (Cincinnati) District by a decisive majority and Galloway has beaten Olds in the Columbus District.

The Whig gain on the *Congressional Ticket*, along the line on the Cincinnati and Sandusky Railroad, the editor of the Nonpareil reports, ranges from 200 to 500 in almost every county.

Sandusky, Oct. 14.

The returns from Erie county give a majority for F. B. Sadler, whig, for Congress, over W. D. Lindsey, dem., of 430. The county is about equally divided, while the State ticket has gone democratic.

The democratic candidate for the Supreme Court in the above county has 10 majority, and the whig member for the Board of Public Works 12 majority.

Huron County, also a portion of the 13th District gives a reported majority of 650 for Sadler, whig.

Cincinnati, Oct. 12.

"Anti-Miami tribe have triumphed in this county. Democrats concede the election of half the Whig ticket, including Harrison for Congress.—Whigs claim the whole ticket except Disney. Campbell elected from second District by a small majority. Higden, (Whig) Sheriff of this county, certainly elected. The Locos are down in the mouth. The Whigs have taken everything."

Indiana Election.

Boston, 13.

The Cunard steamer, sailed to-day for Halifax, and Liverpool. She takes $320,000 in specie.

New York, Oct. 14.

The trial of Bishop Doane is still progressing. The principal resolution now before the body, is the dismissal of the charges originally made, which appear groundless.

Hon. T. L. Clingman, of North Carolina, is out in a letter in favor of Pierce.

A large and enthusiastic meeting was held at the Broadway House last evening, to express public indignation at the authorities. Animated speeches and spirited resolutions were adopted.

Baltimore Election.—The Locofocos have barely escaped defeat in Baltimore, electing their Mayor by only 300 majority. The usual Locofoco majority is between 2 and 3000.

☞ The Engineers are now engaged in this neighborhood, surveying the Rail Road from Decatur west, to this place. We expect they will complete the survey to this village in a few days.—*Monroe* (Green Co.) *Sentinel.*

The Effects of the Tariff of 1846.

There is no better commentary on the effects which the Tariff of 1846 has had on the country, than to compare the amount of indebtedness which the people of the several states have incurred to Europe, and principally to English capitalists, since the passage of this vagary from the brain of Robert J. Walker into a law.

Of the amount of United States stock issued since 1848, to pay off the debts incurred in the Mexican war, no less than thirty-four millions are owned in Britain at the present time, and the whole increase of the debt of this country to foreign capitalists since 1847, when the tariff law went into operation, has been *one hundred and twenty millions of dollars,* more than sixty millions of which have been for the construction of railroads, and the purchase of foreign iron. Besides these stocks, it must be recollected that each year since that time the amount of specie shipped from this country has amounted on the average to about twenty-five or thirty millions per year. The present debt which we owe Europe is altogether 260 millions of dollars, and the interest on this sum calculated at 5 per cent, which is greatly below the average, amounts annually to thirteen millions of dollars. When to this large amount for interest we know that each year, stocks, in the shape of railroad bonds, city bonds, county bonds, and state bonds, are thus sent over to pay for the articles which the country uses up every day, and from which we have no return, such as dry-goods, iron-ware, and manufactured articles generally every one must admit that we are binding ourselves down hand and foot to the capitalists of Europe at a railroad gait, and that we are fast becoming hewers of wood and drawers of water to support European aristocracy. No wonder then that the London Times and all the organs of the money lenders of Europe, pray for and advocate the election of Pierce; who is pledged to put the country still more in their power.—*Detroit Advertiser.*

Interesting from the Plains.

We had a brief conversation yesterday evening with Major Sanderson, who arrived night before last on the Clara from Fort Leavenworth, en route from Fort Laramie. The Major left Jefferson Barracks in June last, under order for the South Pass of the Rocky Mountains, on account of some reports of Indian hostilities in that region. On his arrival at Fort Leavenworth he found dispatches there ordering him to march with the troops under his command, to Fort Atkinson on the Arkansas, where it was rumored that some one thousand five hundred lodges of the Sioux and other tribes of Indians had congregated with the intent to destroy the Fort.

On their arrival at the Fort, this was found to be incorrect; the Indians having gathered there by invitation of Maj. Fitzpatrick, for a "talk." From thence the company proceeded direct to Pueblo, leaving the company of dragoons at the Fort, on the head waters of the Arkansas; approaching near to the foot of "Pike's Peak;" thence up Boiling Spring river to Soda Spring; thence to the head waters of the south fork of the Platte, at the base of the Rocky Mountains; thence down the south fork to St. Varin's fort; thence across to Powder river; thence to Fort Laramie and thence down the Platte to Fort Leavenworth; marching during this time, over 2,000 miles. This is one of the longest and most rapid marches ever made by United States troops, and during four months of the time, the men were in the saddle. The health of the troops was excellent during the whole march; one man, only, being lost, and he by accident, having been killed by being run over by one of the wagons.

During the march they visited six different tribes of Indians, viz. Osages, Camanches, Kiowas, Arrapahoes, North and South Cheyennes, Pawnees and several bands of Sioux. There have been some difficulties between the various tribes, especially the Cheyennes and Pawnees. —*St. Louis Republican.*

MISCELLANEOUS.

HAY PRESS.

THE IMPROVED PATENT LEVER RAILWAY PRESS EXCELS ALL OTHERS now in use for pressing Hay, Cotton, Hemp, Wool, Hops, Rags, &c. &c., and will be warranted to perform well and do double the work that any other press can with the same number of hands, with less than half the draught; a small boy can attend the horse, and the running back of the follower with ease. The time required in running up the follower, is fifteen seconds. A bale of Hay can be pressed in less than one minute, at ordinary all day work: seven or eight bales can be pressed and bound per hour. Bales of Hay can be pressed, weighing over 400 lbs., measuring two feet square and four feet long. Bales of Cotton can be made compact enough without compressing.

The construction of this press is such that it does not require a building expressly for it, as it may be placed in any barn or shed, and the horse may move in any direction, or at any distance from it; and when the bale is ready for delivery, it is discharged [illegible] follower gradually [illegible] the hay is placed in the box.

The construction is so simple that any man can make a Press, or keep it in order.

The travel for a horse in running up a bale is sixty feet, while in a screw press, the travel is one mile and a half in running the screw up and down. We have one new Press now in operation at Waukesha, Wis., and [illegible] in process of construction.

So great a failure of the hay crop as has occurred in all of the Eastern and Atlantic States, the present season, cannot fail to ensure a most profitable business to any persons in Wisconsin or Illinois who may take hold of this business with energy. The hay may be shipped during the present fall and [illegible] months of the spring, [illegible] another hay crop is raised.

REPORT OF THE PREMIUM COMMITTEE OF THE AGRICULTURAL SOCIETY OF NEW-YORK.

"The Lever Railway, Hay and Cotton Press, is a machine combining great power, convenience of operation, and constructed on true philosophical principles, and is a great desideratum to the river counties, and all places not contiguous to market, and also to cotton and hop growers; and the Committee think they do not exaggerate when they say it is, in their opinion, the perfection of machinery for that purpose. The Committee therefore award a premium of $5."

The Press, with the right to use it, can be purchased at less than half the cost of any other Press now in use. For rights for a single Press, or Towns, Counties and States, application should be made to the subscriber.

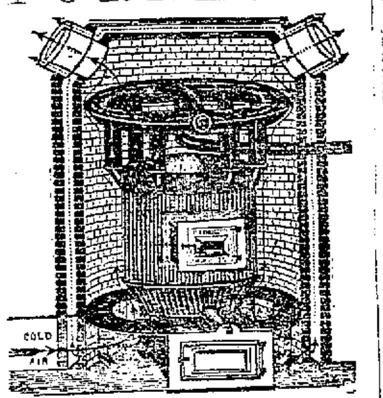
N. Y. ADVERTISEMENTS.

FROM S. M. PETTENGILL'S ADVERTISING HOUSE, 122 NASSAU ST., N. Y.

CHILSON'S PATENT World's Fair Prize Medal FURNACE!



WE ARE HAPPY TO ANNOUNCE THAT CHILSON'S PATENT AIR WARMING AND VENTILATING FURNACE, as recently improved and patented is declared by high and reliable authority, to be the

BEST FURNACE IN THE WORLD.

Not only is this Furnace, and our system of ventilation, proved and declared to be the best mode of Warming and Ventilating DWELLING, CHURCHES, ACADEMIES, SCHOOL HOUSES, COURT and STATE HOUSES, HOSPITALS, STORES &c., in nearly all the cities and towns in the United States, but is meeting with equal favor in the CANADAS, ENGLAND, RUSSIA, and other Foreign Countries. It has been awarded at the recent Fairs in this country, gold and silver medals, first premiums, and lastly the Great Prize Medal at the World's Fair, London. It has been subjected to the most rigid investigation and severe practical tests, and unanimously declared the best.—(See the printed reports of the Fairs, also city and state public committees on public buildings.) We have more than twenty-five hundred references, many of whom are professional gentlemen, whose scientific attainments in such matters are well known. To attain this desirable object, the inventor of this Furnace first abandoned the manufacture of the common cast iron air furnaces seven years since, under the settled conviction, that red hot iron furnaces burn the oxygen out of the air, producing an unhealthy, scorching, disagreeable odor, unfit to be inhaled by human beings; besides the constant cracking and burning out of the pots, which permits the poisonous gases to escape and mingle with the air; and the annoyance and expense of repairs, new pots, &c. He now has the satisfaction of knowing that his efforts to secure a *healthful, economical* and *durable* apparatus, for thoroughly warming and ventilating buildings, has been entirely successful.—They possess the following advantages: purity of air, powerful heaters, economical plan for burning anthracite, bituminous coals or wood, all equally well—flues easily cleared out—great durability of furnace, not liable to repairs for a life time; perfect safety against setting buildings on fire in which they are located; may be set in low cellars.—Sizes for all classes of buildings. Also, 4 sizes of new and superior PORTABLE FURNACES,—Dr. Clark's Improved Boston School Stove.

Registers of all descriptions; Hot-air Grates; Room Ventilators, &c.

Emerson's celebrated Ventilators for Roofs of Buildings and smokey chimneys, &c. Cooking Ranges, with or without Bath Boilers, and Hot-air Fixtures. All sizes and styles of those beautiful

MIRROR MARBLE MANTLES, PARLOR AND CHAMBER FRAME GRATES,

of rich European and American styles. Also a splendid article of Liverpool Soft Coal Grates, for Parlors, &c.

Architects, Builders, and the public generally, please examine our extensive assortment. Personal attention given to warming and ventilating buildings in any part of the country. CHILSON, RICHARDSON & CO.,

SAUGATUCK IRON WORKS, WESTPORT, CONN.

OFFICE NO. 5 NASSAU STREET, NEW-YORK.

WE DESIRE TO CALL ATTENTION TO THE following articles which we are manufacturing for Railroad companies, to-wit:—Car wheels and axles, boxes and pedestals, wheel presses, locomotive drivers and cylinders, screw cutters, drilling machines, switch stands, levers and targets, frogs, head and heel blocks, chairs, and all castings connected with Railroad superstructure.

WHEELS.—Nearly two years since we commenced business, with the view of making wheels. We were then informed by gentlemen whose intelligence and experience entitled their opinions to great weight, that the wheel was imperfect, and advised us to attempt its improvement.—With every desire to succeed, we commenced an examination of the various patterns in use, to ascertain and secure the best. We soon became convinced that a majority of the patterns would prove satisfactory, if the iron of which they were made was sufficiently strong and properly chilled. Since then, we have left no means unemployed that we could control, to procure a new and stronger combination of iron than heretofore used, and feel confident that we have succeeded, with which we are now manufacturing double and single plate and spoke wheels, fully guaranteed as regards strength and perfect chill. Within sixty days we will be able to supply limited orders with "Whistler's Express" and "Whistler's Single Plate" wheels. From the material used in, and the expense of fitting up, these patterns will cost something more than ordinary wheels, but it is confidently predicted by those whose opinions are most valuable in such matters, that they will possess a greater amount of strength than any cast or combination wheel made. They are the invention of Geo. W. Whistler, Jr. Esq., whose experience in all matters connected with railroads is sufficiently known; and intended to obviate the influence of contraction and expansion to an extent that will render them perfectly safe in all weather, at the highest rate of speed.

AXLES.—We will use none but the best fagoted, which are superior to any other.

SWITCH STANDS, LEVERS AND TARGETS.—We have adopted a stand that recommends itself for simplicity of construction, and the best guarded of any we know, invented by Van Blarcom, Superintendent of Machine Shops of the Housatonic & Naugatuck Railroads, but will make of any pattern desired.

SCREW CUTTERS, the invention of Mr. Van Blarcom, a useful, cheap and substantial machine.

BOXES AND PEDESTALS of any size or pattern to order.

DRILLING MACHINES, of a very simple and very substantial character.

WHEEL PRESSES.—Made to order.

LOCOMOTIVE DRIVERS AND CYLINDERS.—Made to order.

FROGS, CHAIRS, HEAD & HEEL BLOCKS, And all work connected with superstructure, made by contract.

Presenting our success in the facilities we possess of procuring the latest improvements in machinery, and the uniform excellence of our work in material and finish, we solicit orders.

H. H. RAYMOND'S Spherical Disinfecting Fluid,

FOR purifying the air of sleeping and sick rooms, cabins and holds of ships, particularly for passenger ships, at sea or in port, prisons, jails, crowded rooms in general, from offensive, close and infectious air of all kinds including the infectious spheres of cholera, ship, typhus, yellow, bilious, scarlet and other fevers of our own or Southern and Western climates, in cities and towns, on land and water. Also, for disinfecting the bodies, clothes, and trunks of persons who are in or have been in the atmosphere of infectious diseases.

This fluid is healthy to breathe or take internally, and instead of filling the room with a choking, irrespirable air, as the chloride of lime and other chemical preparations in use do, it makes the whole air sweet and salubrious, and at the same time strengthens the respiration and enlivens the spirits of those present, by its balmy, fragrant and tonic influence.

The Following Certificate

selected from a number, can be seen at the store of the agents:

Astor House, New-York, 27th April 1850

We have used H. H. Raymond's Disinfecting Fluid, and recommend it to all as an excellent article, the best we have ever used.

HOE'S CAST STEEL CIRCULAR AND LONG SAWS.

THE SUBSCRIBERS MANUFACTURE FROM THE best cast steel, Circular Saws, from two inches to five feet in diameter. These saws are carefully hardened and tempered, and are ground and finished by machinery designed expressly for that purpose, and are therefore much superior in truth and uniformity of surface to those ground in the usual manner. They require less set, less power to drive them, and are not so liable to become heated and produce a saving in timber.

They also manufacture, Cast Steel MILL, PITT and CROSS-CUT SAWS and BILLET WEBS, of superior quality, all of which they have for sale at their warerooms, Nos. 29 and 31 Gold street, or they may be obtained of the principal hardware merchants in the United States.

The following extract is from a report made by a committee of scientific and practical gentlemen, appointed by the American Institute:

"Your committee are of unanimous opinion, that in the apparatus invented by R. M. Hoe, for grinding saws, he has displayed great ingenuity and tact in the adaptation of machinery to the production of results in the manufacture of Saws, which may with propriety be denominated the ne ne plus ultra of the art."

GENTLEMEN'S FURNISHING GOODS.

They are confident in view of their very superior and unsurpassed facilities for the purchase of goods in the Eastern markets from cash auctions, importers and manufacturers, in all cases from first hands, one of the firm residing and superintending the business of their concern in Philadelphia, that they are not only able, and do buy their goods from 20 to 25 per cent cheaper than most houses in the city who buy on credit, and of jobbers, but they are able and are determined to sell that much lower. They deem it superfluous to attempt, as it is impossible to enumerate the articles that comprise their stock, which in extent is unrivalled by any similar establishment west of the Atlantic cities.

To their friends and customers, and those who know them, it is needless to say anything, but to strangers who are in want of articles comprising their stock, they will say, call on us and let us show you the great inducement we are able to offer; we will give you polite and respectful attention, with better bargains than you are able to get elsewhere. The most perfect satisfaction is guaranteed in all cases to those who deal with us.

PATENTED JULY 22, 1851.

THIS machine is now in successful operation at the shop of Wm. Hawkins in this city, and will dress Staves for
Packing, Flour and Whiskey
BARRELS,
and PIPES or HOGSHEADS, at the rate of
600 Whiskey or 800 Flour Barrel Staves

straight, winding or crooked. In fact, any stave that can be worked by hand will be dressed by this machine, either for tight or slack work, from 22 inches to 72 inches in length of any reasonable width, and *to any requisite bilge*, and in the most perfect manner. The stave passes through the machine a single time, is dressed by rotary cutters and is then ready for the truss hoops. The dressing of the sides and jointing of the edge of the stave is performed perfectly. The machine is made of iron, is strong and durable, and is not difficult to keep in good order for use. Six horse power is sufficient to drive the machine with all the speed necessary.

The Subscribers having purchased of Wm. Hawkins the patent right for the United States are prepared to sell rights for States, Counties, or for running single machines and to furnish and set up the machines, warranted to perform perfectly. In the great saving of expense of transportation of dressed over the rough stave, the rapidity and perfect manner with which it performs its work, consists the value of this machine.

Satisfactory testimonials can be furnished if desired.

It will cook in half the time of any other stove now in use, and with half the fuel, not consuming over four cords of wood in one year.

The TRIUMPH, single oven, takes in long wood, is an excellent stove—one that has been well tested, and given general satisfaction.

The PREMIUM is different in its construction from any other made, in the arrangement of the fire back—acknowledged to be a great improvement.

The JUNO PARLOR is adapted to either wood or coal, being decidedly the neatest arrangement ever offered to the public, having all the convenience of the stove combined with the beauties of the open grate. It is beautifully ornamental, highly finished, and perfect in every respect—the entire front above and below the grate being opened or closed with three doors, and so arranged that when open they are completely out of sight. It is equally adapted to offices as well as parlors.

The RADIATOR is the best coal stove ever got up as a retainer of heat.

Persons purchasing their stoves of us, in the event of any of the plates getting broke, can at all times be supplied with extra ones, thus superceding the necessity of throwing away stoves, which many are daily compelled to do in buying Eastern ware.

Those who are in want of an articles in our line, will find it to their advantage to give us a call, before purchasing elsewhere, as we are confident that we can give satisfaction in all cases. City references given, where our stoves can be seen in operation. Stoves delivered and set up in any part of the city, free of charge. All orders promptly attended to.

THE GREAT REMEDY
FOR
PILES, HABITUAL COSTIVENESS,
FEMALE COMPLAINTS,
Nervous Debility,
DYSPEPSIA,
OR
Loss of Appetite.

THE CONSTANT USE OF PHYSIC FOR THE ABOVE-NAMED COMPLAINTS, IS INJUDICIOUS AND DANGEROUS!

This any Physician will tell you—The more physic used, the more it requires—at last the tone and action of the bowels are destroyed, and the patient becomes afflicted with numerous kinds of nervous disorders.

The Genuine Dr. Townsend's Sarsaparilla, has never failed in a single instance of curing the Piles and Costiveness, which to Females, is the great cause of those complaints which consume their strength, waste their Nervous energy, and enfeeble the whole Constitution. Mental Weakness is consequent upon physical prostration.

This Medicine acts as a simple, but powerful Tonic. It checks the tendency to exhaustion,
RENOVATES THE BLOOD,
allays NERVOUS EXCITEMENT, and reanimates the
Whole Body with New Life.

Dr. JAMES R. CHILTON,
The most celebrated Chemist in the United States, has taken charge of the Manufactory for more than a year, and has made many important improvements in the Medicine—from one to two teaspoonfuls of the improved Sarsaparilla, is all that is required for a dose, to act as a mild Alterative and Tonic.

Beware of Counterfeits.
Dr. Chilton's Certificate, printed on green paper, will be found on every bottle prepared since February, 1850, as well as Dr. S. P. Townsend's signature, on steel plate label on the outside wrapper.
